

Is It an Amphibian?

Belinda's sister came home excited about her science class. They were studying amphibians. Her sister asked Belinda to help her make a list of amphibians.

Put an X next to the animals they should put on their list.

- | | | |
|--------------------------------------|--------------------------------------|--------------------------------------|
| <input type="checkbox"/> tree frog | <input type="checkbox"/> dragonfly | <input type="checkbox"/> pond turtle |
| <input type="checkbox"/> water snake | <input type="checkbox"/> penguin | <input type="checkbox"/> beaver |
| <input type="checkbox"/> shark | <input type="checkbox"/> alligator | <input type="checkbox"/> bullfrog |
| <input type="checkbox"/> duck | <input type="checkbox"/> salamander | <input type="checkbox"/> whale |
| <input type="checkbox"/> catfish | <input type="checkbox"/> toad | <input type="checkbox"/> sea turtle |
| <input type="checkbox"/> mosquito | <input type="checkbox"/> crab | <input type="checkbox"/> seal |
| <input type="checkbox"/> snail | <input type="checkbox"/> rattlesnake | <input type="checkbox"/> eel |

Explain your thinking. What rule or reasoning did you use to decide if something is an amphibian?
